

PRODUCT FACT SHEET

Digital floor plan screen

(Sony Bravia Professional 50" 4k screen)

Description

Installed in strategic office locations—like lobbies, stairwells, elevator entrances, or corridors—to provide a real-time overview of workspace availability to employees.

Product benefits

Nimway digital floor plans are helpful displays of workspace availability that let staff or visitors orient themselves with ease. On the display, you will see the current availability of all workspaces in real time. This turns the digital floor plan into a spontaneous and dynamic meeting spot for finding your way around the office.
